

# MC-37/BLK

## NON-MAGNETIC TOUCH LATCH

### MC-37/BLK-1 FLOATING STRIKE

### MC-37/BLK FIXED STRIKE

A floating strike absorbs minor shock, correcting misalignment and door shift, making installation easier and keeping the touch latch working reliably over time.

A fixed strike delivers crisp, stable latching with tight, consistent reveals; ideal for precise, high-end cabinetry and stable panel constructions.
